Scope of Policy

I. General Statement of Policy

Temple University is committed to generating and disseminating knowledge and to protecting traditional principles of academic freedom. Temple University further recognizes the importance of protecting the lives and rights of all who are involved in those processes and of maintaining a relationship of trust within the broader academic, research, and social communities. By this policy, Temple University requires that each person who engages in or supervises research or creative work be responsible for conducting these activities in an ethical manner.

A determination of a violation of this policy may constitute adequate or just cause for disciplinary action up to and including dismissal.

II. Summary of Process and Procedures (described more fully in the Procedures section, below)

A. Process for Members of Group 1

1. Upon receiving information that a violation of the policy is alleged to have occurred, the Institutional Official preliminarily will assess whether sufficient information exists to refer the matter to an Inquiry Committee. In the case of members of Group 1, the Inquiry Committee will be the Faculty Senate Personnel Committee (“Personnel Committee”).

2. If the Institutional Official reports the matter to the Personnel Committee, the Personnel Committee will determine (1) whether there is sufficient evidence of
misconduct to warrant an Investigation, and (2) if so, whether in its view, formal proceedings to consider dismissal or discipline should be instituted. The Personnel Committee, when it deems it appropriate, may designate a subcommittee to preliminarily collect and evaluate the evidence.

3. The President, after reviewing the findings and recommendation of the Personnel Committee, will decide whether to institute formal proceedings for discipline up to and including dismissal.

4. If the President institutes formal proceedings, the Personnel Committee will appoint an Investigation Committee (Hearing Committee) to determine whether misconduct occurred and to recommend appropriate action to the President.

5. The President or the President’s or President’s Designee will decide what action(s) to take.

B. Process for Members of Group 2

1. Upon receiving information that a violation of this policy is alleged to have occurred, the Institutional Official preliminarily will assess whether sufficient information exists to refer the matter to an Inquiry Committee. In the case of members of Group 2, the Institutional Official will appoint the members of the Inquiry Committee.

2. If the Institutional Official reports the matter to an Inquiry Committee, the Inquiry Committee will determine whether there is sufficient evidence of misconduct to warrant an Investigation and will report its findings to the President or the President’s Designee.

3. The President or the President’s Designee will appoint an Investigation Committee, if appropriate.

4. If convened, the Investigation Committee will determine whether misconduct occurred and will recommend appropriate action to the President or the President’s Designee.

5. The President or the President’s Designee will decide what action(s) to take.

III. Scope of Applicability

This policy applies to all faculty members. This policy also applies to all employees, students and others who are involved with or are working on research or creative work funded by government agencies that require the University to establish policies and procedures for investigating instances of alleged misconduct.

Allegations that a person not subject to this policy committed misconduct in research or creative work will be handled according to other relevant University policies and procedures.
**Definitions**

A. *Allegation* means any written or oral statement or other indication of possible misconduct, as defined in this policy, clearly communicated to the Institutional Official.

B. *Complainant* means a person who makes an allegation of misconduct.

C. *Faculty Handbook* means the document titled the “Faculty Handbook” contained in the “Faculty Guide”. All specific references to the Faculty Handbook are to the version contained in the Faculty Guide published in August 1993. If the Faculty Handbook changes in ensuing years, the then-current version of the Faculty Handbook governs.

D. *Good faith* means the honest belief that misconduct may have occurred. An allegation is not made in good faith if it is made with reckless disregard for or in willful ignorance of facts that would reasonably disprove the allegation.

E. *Group 1* means all tenured faculty members, plus those untenured faculty members who are not covered by the Temple/TAUP Contract.

F. *Group 2* means those untenured faculty members who are covered by the Temple/TAUP Contract and all others (except those members of Group 1) to whom this policy applies.

G. *Inquiry* means the process of gathering information and conducting an initial factfinding beyond the preliminary assessment to determine (1) whether there is sufficient evidence of misconduct to warrant an Investigation, and, separately from the Investigation process, (2) if so, whether formal proceedings to consider dismissal or discipline should be instituted.

H. *Inquiry Committee* means, with respect to members of Group 1, the Personnel Committee of the Temple University Faculty Senate (“Personnel Committee”) or a designee of the Personnel Committee. With respect to members of Group 2, the Inquiry Committee is a committee appointed by the Institutional Official to conduct an Inquiry.

I. *Institutional Official* means the senior-most University research officer who bears ultimate responsibility for research compliance and is responsible for research resource planning across the University, and is responsible for the handling of allegations of research misconduct or research training supported by the PHS or other federal or state agencies, and who is responsible for reporting on behalf of the University to external agencies regarding research-related activity and non-compliance.

J. *Investigation* means the examination and evaluation of all relevant facts to determine whether the Respondent committed misconduct.

K. *Investigation Committee* means, with respect to members of Group 1, a Hearing Committee selected and convened by the Personnel Committee or a designee of the Personnel Committee to consider whether the Respondent committed misconduct and, if so, whether the misconduct could constitute grounds for dismissal or discipline. With respect to members of Group 2, the Investigation Committee is a committee convened by
the President or the President’s Designee to determine whether the Respondent committed misconduct.

L. Misconduct means fabrication, falsification, plagiarism, or other practices that are a significant departure from the accepted practices of the relevant research or creative community for proposing, performing, reviewing, or reporting research or other creative work, that is committed intentionally, knowingly, or recklessly.

Various disciplines (e.g., natural sciences, social sciences, humanities, medicine, law and the arts) may have their own specific ethical criteria and traditions which govern the conduct of research and creative work. Faculty members, administrators, and graduate students working in those disciplines are responsible for knowing those standards and complying with them.

Misconduct includes, but is not limited to, the following:

1. Abuse of confidentiality: taking or releasing the ideas or data of others that were shared with the legitimate expectation of confidentiality; e.g., stealing or disseminating ideas from others’ grant proposals, award applications or manuscripts for publication when one is a reviewer for granting agencies or journals;

2. Deliberate violation of regulations: intentional failure to adhere to or to receive the approval required for work under applicable federal, state, local or University guidelines including, but not limited to, guidelines for the:
   a) protection of human subjects;
   b) protection of animal subjects;
   c) use of recombinant DNA;
   d) use of radioactive material;
   e) use of hazardous chemicals or biological materials; or
   f) compliance with laboratory safety requirements;

3. For grant-supported work, engaging in acts that would constitute misconduct under definitions provided by a United States or State government funding agency (e.g., the Public Health Service (PHS), the National Science Foundation (NSF) or comparable granting agencies) or other source of research support;

4. Ignoring deficiencies required by Temple University’s Environmental Health and Radiation Safety Department, or its functional equivalent;

5. Dishonesty in publication: knowingly publishing material that will mislead readers, e.g., misrepresenting data or their origin, misrepresenting research progress or adding or deleting the names of other authors without their permission, or omitting any such elements of scholarship;

6. Fabrication of data: making up data or results and recording or reporting them;
7. Falsification: manipulating research materials, equipment, or processes, or changing or omitting data or results so that the research is not accurately represented;

8. Interference with primary usership: unreasonable or unwarranted interference with another individual’s use of equipment, materials, supplies, necessary resources, or physical space assigned by the University;

9. Plagiarism: taking credit for someone else’s work and ideas, stealing others’ results or methods, copying the writing of others without proper acknowledgment, or otherwise appropriating or taking credit for the work or ideas of others; and

10. Committing is defined as:
   a. Intentionally: using false, fabricated, or plagiarized materials for research misconduct, whether or not an individual accomplished the use of such materials;
   b. Knowingly: using false, fabricated, or plagiarized materials for research misconduct knowing that the use was false, fabricated, or plagiarized ; or,
   c. Recklessly: using research records or any related materials without exercising proper care or caution and disregarding or showing indifference to the risk that those records or materials were false, fabricated, or plagiarized thereby causing harm to the integrity of the research project. Honest error shall be not a defense to recklessness.

11. Property (including intellectual property) violations: misappropriating, stealing, destroying, or unreasonably failing to keep or maintain equipment, supplies, or other information including, but not limited to, data, text, works of art or authorship, or databases, or any other media that constitutes a research or scholarly record, which either belong to others or over which others have primary usership.

12. Preponderance of the Evidence: proof of information that, compared to that opposing it, leads to the conclusion that the fact at issue is more probably true than not.

Misconduct does not include good faith and reasonable error in interpretations or judgments of data. The relevance and burden of proof for such honest and reasonable error is on the respondent to show by preponderance of the evidence.

These definitions and their applications are intended to be consistent with traditional principles of academic freedom and applicable federal law, case law, and regulations, and should be so interpreted by those who implement this policy, where applicable. Where specific parts of this policy conflict with applicable federal law or regulations supporting the integrity of sponsored research, federal law or regulations shall be used for those specific parts of this policy.
M. *Office of Research Integrity*, or *ORI* means the office to which the Secretary of Health and Human Services has delegated responsibility for addressing research integrity and misconduct issues related to Public Health Service activities.

N. *President’s Designee* means the Institutional Official, who shall be timely appointed by the President subsequent to the approval of this Policy.

O. *Respondent* means the person against whom an allegation of misconduct is directed or the person whose actions are the subject of a Preliminary Assessment, Inquiry, or Investigation.

P. *Retaliation* means taking action which adversely affects a person’s employment or other institutional status because the person reported alleged acts of misconduct or alleged inadequate institutional response thereto, or cooperated in good faith with an Inquiry or Investigation of such an allegation.

Q. *Temple/TAUP Contract* means the then-current collective bargaining agreement entered into between Temple University and the Temple Association of University Professionals (TAUP).

**Policy**

A. **Applicability of Policy and Procedures**

This policy typically will be followed when the Personnel Committee or the Institutional Official receives an allegation of misconduct as defined in this policy.

The Institutional Official must approve any variations from normal procedure in advance of such variation.

B. **Responsibility to Report Misconduct**

Everyone subject to this policy is expected to promptly report observed, suspected, or apparent misconduct to the Institutional Official or to the Personnel Committee. Failure to report observed, suspected, or apparent misconduct may result in disciplinary action under this or other applicable University policies.

The Personnel Committee will promptly inform the Institutional Official of all reports that come directly to it and will seek the Institutional Official’s input and assistance, as appropriate. If someone is unsure whether a suspected incident falls within the definition of misconduct, he or she may call the Institutional Official to discuss the matter informally and confidentially. If the circumstances described by the person do not meet the definition of misconduct, the Institutional Official may refer that person, as appropriate, to other University offices or officials with responsibility for resolving the problem.

C. **Protecting the Complainant**
The Institutional Official will monitor the treatment of Complainants with the objective of ensuring that they are not retaliated against at Temple and will review instances of alleged retaliation.

Temple will endeavor to protect the privacy of those who report misconduct, in good faith, to the maximum extent reasonably possible. If a Complainant requests anonymity, Temple will make reasonable efforts to honor the request during the Preliminary Assessment or Inquiry. The Complainant will be advised that if the matter proceeds to an Investigation and the Complainant’s testimony is required, anonymity may no longer be possible.

D. Protecting the Respondent

Inquiries and Investigations will be conducted in a manner that will ensure fair treatment and confidentiality to the Respondent to the maximum extent reasonably possible without compromising public health and safety or thoroughness in carrying out the Inquiry or Investigation.

When a Respondent appears before the Inquiry or Investigation Committee, the Respondent may bring one advisor, such as a union representative, an attorney, or a colleague, to interviews or meetings on the case, so long as that individual does not have a conflict of interest with the misconduct proceeding and consents to the confidentiality requirements of this Policy. The advisor will not have an active role in the Inquiry or Investigation except to advise the Respondent when the Respondent is a witness.

E. Cooperation with Inquiries and Investigations

Every Temple faculty member, administrator, employee, student, or other person associated with Temple shall fully cooperate with the Institutional Official and other institutional officials or committees in reviewing allegations and in conducting Inquiries and Investigations. Although a Respondent must furnish research records and other information in his or her possession, the Respondent is not required to provide written or oral testimony.

F. Confidentiality

In conducting Inquiries and Investigations, confidential treatment will be afforded to all affected, to the maximum extent reasonably possible. A breach of confidentiality by any member of the Inquiry Committee, the Investigation Committee, or others involved in the process may, in itself, constitute grounds for formal disciplinary action.

G. Termination of Inquiry or Investigation Process

If informal resolution occurs during an Inquiry or Investigation, or if an Inquiry or Investigation is to be terminated before its completion for any other reason, the Integrity Officer will complete a report of such planned termination, including a description of the reasons for such termination. The Integrity Officer will notify the Complainant and the Respondent of the termination of proceedings, and the reasons for termination.

H. Coordination with Other University Offices
In the course of an Inquiry or Investigation, information or evidence may raise questions about compliance with other University policies. In such cases, the Institutional Official shall refer the matter to the appropriate University official for consideration under the applicable policy.

I. Communication With Funding Agencies

Generally, the Institutional Official is responsible for ensuring compliance with all notification requirements of funding agencies. Typically, the Institutional Official will notify governmental funding agencies after the Inquiry Committee determines that an Investigation is warranted. In addition, the Institutional Official will notify the appropriate agencies at any stage of the Inquiry or Investigation if the Institutional Official determines that:

1. there is an immediate health hazard involved;
2. there is an immediate need to protect governmental funds or equipment;
3. there is an immediate need to protect the Complainant or the Respondents or their co-investigators and other research personnel;
4. it is probable that the alleged incident will be reported publicly;
5. the allegation involves a public health issue, e.g., a clinical trial; or
6. there is a reasonable indication of a possible criminal violation. (In this instance, where PHS funding is involved, the University will endeavor to inform ORI within 24 hours of obtaining that information.)

The Institutional Official should be notified of any matters which involve allegations of alleged research misconduct as reported by a funding agency or sponsor of research. The Institutional Official should be notified of any matter related to research that may require the exercise of administrative and operational authority to commit institutional resources, enforce policies, or authorize necessary administrative action.

J. Timing of Inquiries and Investigations

In the case of an Inquiry, the Inquiry Committee shall use all reasonable efforts to complete the Inquiry within 60 days. If the Inquiry Committee is unable to complete the Inquiry within 60 days, the chair of the Inquiry Committee shall ask the Institutional Official for an extension of time.

In the case of an Investigation, the Investigation Committee shall use all reasonable efforts to complete the Investigation within 120 days. If the Investigation Committee is unable to complete the Investigation within 120 days, the chair of the Investigation Committee shall ask the Institutional Official for an extension of time.

Extensions may require approval of the responsible federal agency.

Procedures

I. Stages in the Process
A. **Stage 1: Preliminary Assessment**

Upon being advised of an allegation of misconduct, the Institutional Official preliminarily will assess whether sufficient information exists to refer the matter to an Inquiry Committee and what, if any, governmental support or applications for support might trigger government agency oversight of the allegation. The Institutional Official will prepare a written report of his or her conclusions.

In cases in which a Respondent has more than one role at the University (e.g., faculty member and administrator or faculty member and graduate student), the Institutional Official shall determine under which of the two sets of procedures the matter will proceed (i.e., those procedures designated for members of Group 1 or those designated for members of Group 2).

If the Institutional Official concludes that an Inquiry Committee should be convened, he or she will take necessary measures to ensure that all original records and materials relevant to the allegation are immediately secured. The Institutional Official, with the support of other University units, shall take reasonable steps to secure all relevant research records, on or before notifying the Respondent of the allegation, Inquiry, or Investigation.

B. **Stage 2: The Inquiry Stage**

1. **Initiation of the Inquiry**

If an allegation of misconduct proceeds to an Inquiry, the Institutional Official promptly will (1) notify the Respondent, in writing, that an Inquiry Committee will be convened to consider an allegation of misconduct, (2) specify the nature of the allegation, (3) provide a copy of this policy to the Respondent, and (4) notify the Respondent that he or she will have the opportunity to be interviewed by and present evidence to the Inquiry Committee.

2. **Appointment of the Inquiry Committee**

For members of Group 1, upon the Institutional Official’s conclusion that an Inquiry Committee should be convened, the Personnel Committee may undertake an Inquiry itself or it may designate a subcommittee to preliminarily collect and evaluate the evidence. If a subcommittee is designated, the subcommittee will be advisory to the Personnel Committee (the Personnel Committee always will function as the Inquiry Committee). If a subcommittee is designated, the Personnel Committee shall consult with the Institutional Official regarding the membership of the subcommittee.

For members of Group 2, the Institutional Official will appoint an Inquiry Committee promptly upon concluding that an Inquiry Committee should be convened.

In all cases, the Inquiry Committee or subcommittee, as appropriate, shall consist of three or more people who have no real or apparent conflicts of interest in the case, are unbiased and have the necessary expertise in the relevant discipline(s) to evaluate the evidence and issues related to the allegation, interview the principals and conduct the Inquiry. These people may be from inside or outside Temple.
3. **Notification of Respondent**

For members of Group 1, the Personnel Committee promptly will notify the Respondent and the Institutional Official of the Personnel Committee membership and the proposed membership of the designated subcommittee (if one is appointed). If the Respondent submits a written objection to any appointed member of the Personnel Committee or designated subcommittee based on bias, conflict of interest or lack of necessary expertise within seven days of the date of the Personnel Committee’s notification of the proposed membership, the Personnel Committee, after consulting with the Institutional Official, will determine whether to replace the challenged member with a qualified substitute.

For members of Group 2, the Institutional Official promptly will notify the Respondent of the proposed Inquiry Committee membership. If the Respondent submits a written objection to any appointed member of the Inquiry Committee based on bias or conflict of interest within seven days of the date of the Institutional Official’s notification of the proposed membership, the Institutional Official determine whether to replace the challenged member with a qualified substitute.

4. **Function of the Inquiry Committee or Subcommittee**

The Inquiry Committee will determine (1) whether there is sufficient evidence of misconduct to warrant an Investigation, and (2) subsequent to a finding of misconduct, whether in its view, formal proceedings to consider dismissal, discipline, other action should be instituted.

At all times, the Inquiry Committee may make proposals for informal resolution.

5. **Charge to the Inquiry Committee (or Subcommittee) and the First Meeting**

The Institutional Official will provide the Inquiry Committee or designated subcommittee, as appropriate, with a written report describing the allegation(s) and will inform the Inquiry Committee or designated subcommittee about this policy and applicable regulations and requirements. The Institutional Official will be available at the Committee’s request to provide other information or serve as a witness. Except when the Institutional Official is a witness, he or she may not be present during interviews of other witnesses. The Institutional Official will not participate in the Inquiry Committee’s or designated subcommittee’s substantive deliberations.

Counsel for the University will be available throughout the Inquiry to advise the Committee as needed, especially with regard to complying with this policy and its procedures and with utilizing applicable standards imposed by government agencies or external funding sources. Counsel will not participate in the Inquiry Committee’s substantive deliberations.

6. **The Inquiry Committee’s Report**

In all cases, the Inquiry Committee will prepare a written report that states the name and title of the Committee members, the allegations, the source of grant funding involved, if any, and a description of the evidence in sufficient detail to demonstrate (1) whether there is sufficient evidence of misconduct to warrant an Investigation, and (2) if so, whether in its view, formal proceedings to consider dismissal or discipline should be instituted. If the Inquiry Committee
does not recommend charges, the Inquiry Committee will state what, if any, other actions it recommends be taken.

In cases involving members of Group 1, the subcommittee (if one is designated) will deliver its report to the Personnel Committee for the purpose of complying with those responsibilities incumbent upon an Inquiry Committee and in accordance with its responsibilities set forth in the dismissal and dismissal/discipline policies contained in the Faculty Handbook and Temple/TAUP Contract, respectively. In such cases, the Personnel Committee will review the subcommittee’s report or conduct further Inquiry and produce its own report. The Personnel Committee shall then transmit its report and Recommendation to the President for action consistent with the dismissal and discipline/dismissal policies contained in the Faculty Handbook and Temple/TAUP Contract, respectively.

In cases involving members of Group 2, if the Inquiry Committee determines that an Investigation is warranted, the Institutional Official will forward the Inquiry Committee’s report to the President for further action consistent with this policy.

C. Stage 3: Consideration and Action by the President or The President’s Designee

1. Consideration and Action by the President in Cases Involving Members of Group 1

In cases involving members of Group 1, the President, upon receipt of the Inquiry Committee’s report, will take further actions consistent with the dismissal and dismissal/discipline policies contained in the Faculty Handbook and the Temple/TAUP Contract, respectively, as applicable. Formal proceedings for discipline or dismissal of faculty members in Group 1 are described in the dismissal and dismissal/discipline policies contained in the current versions of the Faculty Handbook and Temple/TAUP Contract at Sections VI. and Article 13, respectively.

2. Action by the President or the President’s Designee in Cases Involving Members of Group 2

If the Inquiry Committee concludes that an Investigation is warranted, the President or the President’s Designee will designate an individual to appoint an Investigation Committee to consider whether the Respondent committed misconduct.

In all cases, if the President or the President’s Designee decides an Investigation is warranted, the Integrity Officer will inform relevant governmental funding agencies, if any, and take other actions consistent with applicable laws and regulations.

D. Stage 4: The Investigation Stage

1. Purpose of the Investigation

The purpose of the Investigation is to explore in detail the allegations, to examine the evidence in depth and to determine specifically whether the Respondent committed misconduct.

2. Appointment of the Investigation Committee

11
In cases involving any member of Group 1, if the President commences formal proceedings, the procedures for dismissal and dismissal/discipline contained in the Faculty Handbook and Temple/TAUP Contract, respectively, for instituting formal proceedings for discipline or dismissal will be utilized, including those pertaining to formulating the charges and appointing a committee to hear the charges. The Personnel Committee will appoint the members of the Investigation Committee after consulting with the Institutional Official.

In cases involving members of Group 2, the relevant section of the Temple/TAUP Contract or other governing document will be utilized. The President or the President’s Designee will appoint the members of the Investigation Committee after consulting with the Institutional Official, as appropriate.

In all cases, the Investigation Committee shall consist of at least three individuals who have no real or apparent conflicts of interest in the case, are unbiased and have the necessary expertise to evaluate the evidence and issues related to the allegations, interview the principals and key witnesses and conduct the Investigation. These persons may be from inside or outside Temple.

For members of Group 1, the Personnel Committee promptly will notify the Respondent and the Institutional Official of the proposed Committee membership. If the Respondent submits a written objection to any appointed member of the Investigation Committee based on bias or conflict of interest within seven days of the date of the Personnel Committee’s notification of the proposed membership, the Personnel Committee, after consulting with the Institutional Official, will determine whether to replace the challenged member with a qualified substitute.

For members of Group 2, the President’s Designee promptly will notify the Respondent of the proposed Committee membership. If the Respondent submits a written objection to any appointed member of the Investigation Committee based on bias or conflict of interest within seven days of the date of the President’s Designee’s notification of the proposed membership, the President’s Designee will determine whether to replace the challenged member with a qualified substitute.

3. Charge to the Investigation Committee and the First Meeting

At the Committee’s first meeting, a representative or designee of the Personnel Committee or the President’s Designee, as appropriate, will review the charge(s), discuss the Inquiry Report and describe the procedures for conducting the Investigation, including the necessity to maintain confidentiality. The Committee will be instructed that it is to determine whether, in its view, misconduct occurred and, if so, to recommend action by the University up to and including dismissal.

The Institutional Official will advise the Investigation Committee at its initial meeting about applicable University or regulatory procedures or requirements and will be available at the Committee’s request to provide other information or serve as a witness. Except when the Institutional Official is a witness, he or she may not be present during interviews of other witnesses. Neither the Institutional Official nor the President’s Designee will participate in the Investigation Committee’s substantive deliberations.
Counsel for the University will be available throughout the Investigation process to advise the Committee, as needed, especially with regard to complying with this policy and its procedures and with utilizing applicable standards imposed by government agencies or external funding sources. Counsel will not participate in the Inquiry Committee’s substantive deliberations.

4. **Investigation Process**

In all cases, it is within the Investigation Committee’s sole discretion to determine what evidence to consider, which witnesses to interview (other than the Respondent) and how to run the proceedings, in general. However, the Respondent shall be given the opportunity to appear before the Investigation Committee and/or to present written evidence. All interviews shall be recorded. Interviewed parties will be given the opportunity to review transcripts of their interview, and if they choose to do so, shall be permitted a reasonable opportunity to comment on the transcription. Such comments, if any, shall be included as part of the Investigation file.

5. **The Investigation Committee’s Report**

In all cases, the Investigation Committee will prepare a report for the President or the President’s Designee that describes the source(s) of funding, if any, describes the evidence considered, states whether the Respondent is found to have engaged in misconduct, states the text or a summary of the views of the Respondent, states the findings and the basis for the findings, and states the recommended sanctions, if any.

Counsel for the University will review the Investigation Report, in draft form, and will provide advice for the Committee’s consideration.

The Investigation Committee will provide the Respondent and the Institutional Official with a copy of the Investigation Report. Further disposition of and action upon the Investigation Report will be made consistent with applicable procedures for discipline/dismissal.

Once the President or the President’s Designee, as appropriate, has taken final action, the Institutional Official will inform relevant government funding agencies, if any, and take other actions consistent with applicable laws and regulations.

E. **Stage 5: Consideration by the President or The President’s Designee**

In all cases, the President or the President’s Designee, after receiving the report of the Investigation Committee, will within a reasonable time determine what action the University will take.

F. **Evidentiary Standard for the Inquiry and Investigation Committee**

The Inquiry Committee and Investigation Committee shall use the Preponderance of the Evidence in considering whether Misconduct was committed, including affirmative defenses to allegations of Misconduct.

II. **Other Considerations**

A. **Termination of Employment Prior to Completing Inquiry or Investigation**
The termination of the Respondent’s institutional employment, by resignation or otherwise, need not preclude or terminate the misconduct procedures.

B. Interim Administrative Actions

Institutional officials will take interim administrative actions, as appropriate to protect federal or state funds, to safeguard the purposes of a grant, or to promote organizational reporting hierarchy when a senior member of either Group 1 or Group 2 is a Respondent.

C. Protecting the Respondent’s Reputation

If the Respondent is found not to have committed misconduct, the Institutional Official will, if appropriate, make reasonable efforts to restore his or her reputation. Any institutional actions to restore the Respondent's reputation must first be approved by the President or the President’s Designee, whomever made the final decision with regard to the allegations at issue.

D. Protecting the Complainant’s Reputation

Upon completion of an Investigation, the President or the President’s Designee will determine, after consulting with the Complainant, what steps, if any, are needed to restore the position or reputation of the Complainant. The Institutional Official is responsible for implementing any steps the President or the President’s Designee approves. The Institutional Official will also take appropriate steps during the Inquiry and Investigation to prevent any retaliation against the Complainant.

E. Allegations not Made in Good Faith

If relevant, the President or the President’s Designee will determine whether the Complainant’s allegations were made in good faith. If an allegation was not made in good faith, the President or the President’s Designee will determine whether any administrative or other action should be taken against the Complainant.

F. Responsibility of Employees

Faculty members, staff, and students at the University have a responsibility to comply with all regulations governing research imposed by law or University policy, including but not limited to policies governing conflicts of interest, and the policies and principles of the Conflict of Interest Committee, Export Control Committee, Institutional Review Board, the Radiation Safety Committee, Institutional Biosafety Committee, the Animal Care and Use Committee, and any other relevant University body charged with oversight over the regulations governing research.

III. Record Retention

After an Inquiry or Investigation is completed, the Institutional Official will assemble a file including the records and reports of any Inquiry or Investigation and copies of all documents and other materials furnished to the Institutional Official or committee. The Institutional Official will keep all such files for at least seven years after the University takes final action with regard to the misconduct allegation.
Notes

1. Dates of official enactment and amendments:

   Approved by the Faculty Senate on March 21, 1991. Adopted by the Board of Trustees on May 12, 1992.

   Amended and expanded by the Faculty Senate on March 21, 2002. Amendment and expansion approved by the Board of Trustees on May 14, 2002.

   Updated in April 2021 to conform certain terminology and requirements to current PHS (42 CFR 93) and NSF (42 CFR 689) regulations.

   Amendment approved by the Board of Trustees on April 13, 2021.

2. History:

   The May 14, 2002 amendment significantly expanded the existing policy. The 1992 version of the policy is on file in the Office of the University Policy Coordinator.

   The 2021 update (i) replaced the term “Integrity Officer” with “Institutional Official” throughout the policy, and (ii) revised certain timeline requirements per applicable regulations.
